# Target setting areas

# Target setting process

# Possible priority areas for Armenia

**Based on discussions of the 8<sup>th</sup> NPD SC meeting, priority issues for improving the water-and-health situation in Armenia will include the following:**

- Increasing the access of urban and rural populations to improved sources of drinking water and establishing water safety plans;
- Increasing the access of rural populations to adequate sanitation;
- Revision of the legal and regulatory basis related to drinking water and harmonization with European standards;
- Safeguarding the performance of water supply and sanitation facilities under extreme weather conditions and climate change;
- Improving existing water management systems in line with requirements of the Protocol and such applicable EU Directives as the WFD and its economic instruments;
- Safeguarding the relative good status of the existing response systems regarding outbreaks of water-related diseases.

# Background

- Republic of Armenia signed the Protocol on Water and Health in 1999 but has not yet acceded to it
- Applying Protocol techniques in the Marmarik catchment area
- SC led work on the project proposal - submitted to Project Facilitation Mechanism in 2009
- Discussions at the 8<sup>th</sup> EUWI NPD SC meeting – April 2012
- Agreement between UNECE and Finnish Government signed – September 2012
